RECOMMENDATIONS			
CHAPTER I.			
24.104. If we want a dynamic administration not only delegation of power to the 'man on the spot' is necessary but a consensus on not finding fault if a few of his bonafide decisions turn out wrong is essential.	1.15	For the future, training of Revenue Inspector and Village Accountant may be considered for simple cases. A part time Revenue Department official (retired seth Senadi or Talayari willing) may be appointed as an experimenter where arrears are heavy and result reviewed periodically.	
CHAPTER II			
24.105. Only two new districts recommended, Gadag and Shorapur.	2.36	24.117. A short term scheme for on the job training for taluk office clerical assistants, untrained Revenue Inspectors, Village Accountants may be considered.	2.48
24.106 Irrigation district as a rule not recommended.	2.37	24.118. Staff position in the 85 bigger and populous taluks (See Para 2.40) needs review by Efficiency Research Bureau Officers.	2.49
24.107. Constitution of 18 new taluks only recommended.	2.38	24.119. For Deputy Commissioner's Offices sample study by E. R. B. recommended.	2.50
24.108. Five small taluks recommended for abolition.	2.39	24.120. Provision to meet cost of petrol and oil for block jeeps to be used by Tahsildar for 12 days in a month will improve collection of Government dues.	2.51
24.109. For 85 taluks Special Deputy Tahsildar supporting staff recommended as an alternative to reorganisation.	2.40	24.121. The necessity for keeping inspection reports pending for over a year needs examination. In office inspections, the Inspecting Officer may personally see all pending files of at least one section.	2.52
24.110. For 84 double or multiple blocks senior A.E.O's as Assistant Block Development Officers.	2.41	24.122. Data Bank may begun in E.R.B.	2.53
24.111. The adequacy of orientation training fixing a measure for adequate work load of a gramsevak seems desirable. The number of gramsevaks/A.E.O's seems inadequate in a few extensive taluks. A review may be useful. To keep the tempo of extension filling up of 988 Vacant posts of Gram Sevaks seems desirable.	2.42		
24.112. A review of location of Gram Sevak's headquarters, his availability, distance of service co-operative, agricultural supply godown may be useful.	2.43
